

## **Market Statistics Research Intern**

### **Description**

Conduct research primarily to 1) complete statistical databases, and 2) assist in research reports and projects. Topics include: historical trends (domestic & international) in all aspects of movie performance, including film and DVD release patterns; movie and television productions; and motion picture title information. A successful intern will gain an understanding of film production and distribution trends, research skills, and experience with information collection and database procedures.

### **Qualifications**

Excellent computer skills (Windows/all programs, MS Office, particularly Excel, and Access preferred). Familiarity with Internet and other research techniques. Attention to detail. Good communication skills, additional languages welcomed. Entertainment industry experience not required.

### **Hours**

20 to 40 hours per week, Work schedule is flexible. Work at our site during business hours (M-F, 8:30am-5:30pm).

Unpaid/for school credit ONLY

Deadline to apply: None

**Qualified candidates should send resumes and availability schedule to [careers@mpaa.org](mailto:careers@mpaa.org). Please reference Market Statistics Research Intern.**
